

## SPT-61

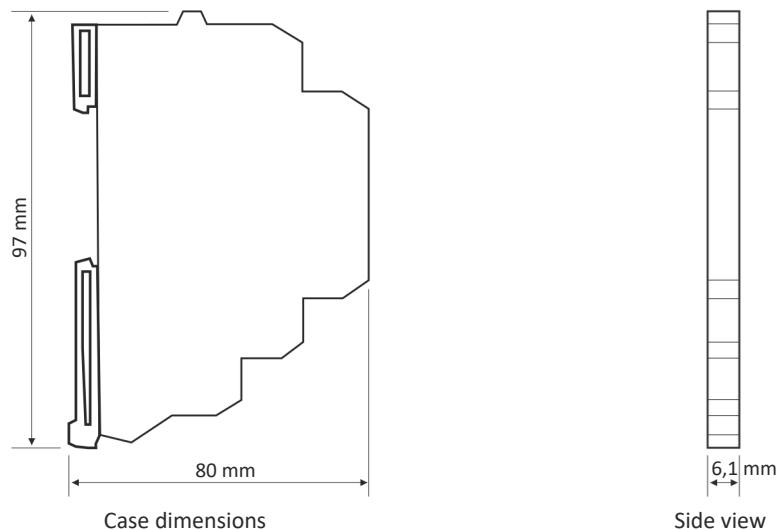

- Pt100/500/1000 to 4-20 mA converter module
- powered directly from current loop
- USB or RS-232 interface
- automatic recognition of 2- and 3-conductor connection
- full linearisation of the input
- free configuration software S-Config
- DIN rail mounting, very thin case - only 6.1 mm

The **SPT-61** module is equipped with Pt 100 / Pt 500 / Pt 1000 type input with automatic recognition of 2- and 3-conductor connection. Due to precision of measurement 3-wire circuit is recommended. The measurement range spans from -100°C to +600°C, and input is fully linearised according to PN-EN60751+A2:1999 standard. Module allows conversion from temperature (RTD) to the current value in 4-20 mA standard. Measurement value is transmitted to the current loop output directly after recalculation according to scale selected by user. If input signal exceeds the permissible range, shortcut or break of measurement circuit occurs. The **SPT-61** module is equipped with peaks detection function. It can detect peaks of the input signal and hold their values. The device and registers configuration may be done via build in USB interface, visible for PC as Virtual Com Port. Transducer parameters can be set by S-Config software. Every unit can be factory pre-configured on request.

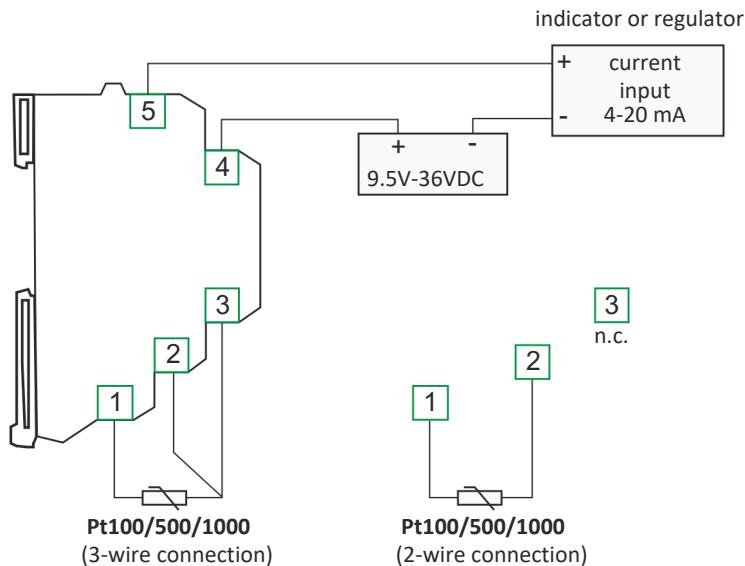

### TECHNICAL DATA

<b>Power supply / Power consumption</b>	24V DC (9,5 ÷ 36V DC) 3.4 - 22.1 mA (during normal operation), max. 3.7 mA (during configuration, supplied from USB port)
<b>Input</b>	Pt 100 / Pt 500 / Pt 1000 (2- or 3-wires, automatic connection recognition)
<b>Measurement range</b>	-100°C ÷ +600°C
<b>Accuracy</b>	± 0.2°C (@ 25°C)
<b>Temperature stability</b>	0,01% / °C
<b>Resolution</b>	internal: 0.1°C output converter: 12 bits
<b>Measurement wires resistance</b>	max. 20 Ω
<b>Output</b>	passive current: range max. 3.4 ÷ 24 mA, load resistance 0... (Us - 9.5V) / 24 mA [kΩ]
<b>Communication interface</b>	mini USB - built-in MODBUS RTU port with USB VCP (Virtual Communication Port) interface or RS-232, 8N1 and 8N2, 9600 bit/sec., Modbus RTU, not separated
<b>Data memory</b>	non-volatile memory, EEPROM type
<b>Software</b>	S-Config 2 for configuration and data reading
<b>Operating temp.</b>	0°C ÷ +50°C
<b>Storage temp.</b>	-10°C ÷ +70°C
<b>Humidity</b>	5 to 90% no condensation
<b>Protection class</b>	IP 20
<b>Mounting</b>	DIN rail (35 mm)
<b>Case material</b>	NORYL UL 94 V-0
<b>Dimensions</b>	80 x 97 x 6,1 mm
<b>Weight</b>	ok. 40 g

## DIMENSIONS

## WIRING

## ORDERING

SPT-61-1315-2-1-001

### Note:

S-Config software can be downloaded from SIMEX webpage at [www.simex.pl](http://www.simex.pl).
