

RK310-02 Atmospheric Temperature Sensor is produced with K type thermocouple as the sensing element, and the thermocouple located in the probe head where is done with overall seal to ensure the accuracy. If need, this model also can be equipped with 11 plates radiation shield (RK95-01) to protect the sensors from solar radiation and rain.

FEATURES

- High Sensitivity
- Fast response time
- Compact in size
- Easy installation
- Good stability of output

APPLICATIONS

- Environmental monitoring
- Livestock farm
- Storage
- Forestry
- Greenhouse
- Agriculture

TECHNICAL SPECIFICATION

Item	Technical Specification
Range	0-+600°C(probe)
Accuracy	±0.75t (t:current measured value)
Output Signal	K type thermocouple
Operating Temperature	-40°C-+600°C(probe) -40°C-+80°C(with radiation shield)
Ingress	IP67
Protection Storage	10-60°C@20%-90%RH
Probe material	304ss
Cable material	Teflon skin with metal shielding net
Dimension(probe)	Φ5*100mm
Radiation Shield(optional)	RK95-01 11 plates

Complies with applicable CE directives.
